A man who can be helpful on the activities of the various Cuban organizations, their history, and particuarly in dating events and giving relatively dispassionate appraisal of people, I think is CARLOS DE LA VEGA.

CARLOS is working as a translator at Ochsner Clinic, VE. 4-7070. His home is at 1200 State Street, 891-8729. He is the local head of RECE.

I had a long chat with him last night and in the course of checking out a few of the things he told me I find his recollection of dates is quite accurate and that the official accountings are not.
